

Hang your head in shame

F F7 Bb
Does your conscience ever bother you,

F C7
Everytime you hear my name?

F Bb
Oh, try to think of all that I've gone through

F C7 F
and hang your head in shame.

Bb F
Some one came along and took my place,

C7
then you gave me all the blame.

F F7 Bb
Oh, you should go somewhere and hide your face

F C7 F
Then hang your head in shame.

Now when you said I was the only one
Was it just your little game
Try to think of all the harm you've done
And hang your head in shame

I should hate you but I love you still
In my heart I've kept the flame
Now you'll be sorry darlin' yes you will
Then hang your head in shame
