

## Maiden's Prayer

A D  
Twilight falls, evening shadows find,  
E7 A  
there 'neath the stars, a maiden so fair, di-vine.  
A D  
The moon on high, seems to see her there.  
A D A D  
In her eyes is a light shinning ever so bright  
A E7 A  
she whispered a silent prayer.

A D  
Every word revealed an empty broken heart.  
E7 A  
Broken by fate that holds them so far a-part.  
A D  
Lonely there she kneels and tells the stars a-bove,  
A D A D  
in her arms he be-longs, in her heart is a song,  
A E7 A  
an un-ending song of love.
